## Our Coaches

One of the best things about a **Weekend Warriors** camp is the outstanding coaching staff. First and foremost, they are highly qualified. Most of them coach teams at the collegiate or professional level. However, just as important as their knowledge and skill is the fun and passion they bring to the camp. Our players are constantly amazed that such high level coaches are so approachable, friendly and interested in helping recreational level players like them. The coaches' intense love for the game coupled with their fondness for working with eager adults help create an atmosphere that is above and beyond any you have ever experienced. Not only will you improve your hockey skill and knowledge, but you will have an experience filled with fun and camaraderie. You will, after all, become a part of the **Weekend Warriors** family!

*"Anyone can put a team through drills - blow a whistle - yell - these guys taught."*  
Jerry M. - Canastota, NY - Age 48
